

## *Demographic Research* reference guidelines

---

List all sources cited in the text in a section at the end titled "References." Place them in alphabetical order and do not number them. Include all authors' names. Reference citations within the text should include the author's surname and the year of publication as follows:

- A direct citation of a reference places only the date within parentheses: Hoem (2008).
- An indirect citation of a reference places both the name and the date within parentheses, with no punctuation between them: (Milewski 2007).
- References following direct quotations must include the page number(s) of the quote: "On closer investigation, we found this thinking to be fallacious" (Leone and Hinde 2007: 162).
- For works with two or three authors, use the full form of the citation at all times.
- For four or more authors, use the first author's surname followed by "et al." for all in-text citations. However, give all names in the bibliography.
- When two or more works by the same author are cited together, do not repeat the name(s). Separate the dates by commas: (Schmertmann 1999, 2005).
- Works published by the same author(s) in the same year are distinguished by attaching lowercase letters (a, b) to the year of publication: (Arbeev et al. 2005a, 2005b).

### Basic format for books

Last name, Initials (Year). <i>Book title: Subtitle</i> . Place: Publisher.
---

### Book – single author

Citation in text: (Booth 2004)

Reference list form: Booth, K.M. (2004). *Local women, global science: Fighting AIDS in Kenya*. Bloomington: Indiana University Press.
